Highway Commissioner -The National Pollutant Discharge Elimination System Permit Program was put into place by the Illinois EPA in 2003. One element of this ruling required separate storage containment for such things as: salt, gas, paint, and insect control chemicals. Additionally, we must monitor the outflow of storm sewers, ditches, and retention basins for discharged pollutants. We recently called on Robinson Engineering to assist our compliance efforts with this program and satisfy recent requests from IEPA for additional documentation.

Trustees - Nick George reported on the Frankfort Township Charities annual drive to collect donations for home bound seniors. This year the focus is on Mug Collection to be handed out through Meals on Wheels for Valentine's Day.

Supervisor - Reported a quiet month with only a few minor zoning issues to take care of for residents whose property was originally laid out using the then existing farm borders.
