

Dear Resident,

Thank you for your interest in the free wood chip delivery service. Please read the following carefully. If you have questions, please call our office 708-479-9673.

The Township will always call to confirm delivery date. Deliveries are usually done on Thursdays and/or Fridays.

The amount of wood chips that you would be receiving would be approximately 8 to 9 yards in a large load and 4 to 5 yards in a small load.

Wood chips are only dropped in driveways. Once dropped, you assume all responsibility for the wood chips. The Township does not come back and pick up the wood chips once they have been delivered.

Disclaimers only need to be sent in once. Your signed disclaimer will be kept on file, just call the office to be added on to the delivery list each year.

By signing this document, you fully understand all the specifications that the Frankfort Township Road District has established for the wood chip delivery program:
