Mokena, Illinois 60448

Fax
(708) 479-0690

Dear Resident,

Thank you for your interest in the free wood chip delivery service. Please read the following carefully. If you have questions, please call our office 708-479-9673.

The wood chips are not the quality that you would be getting from a landscaping company.

Our wood chips come from our weekly branch pickups and tree removals. The wood chips are ground twice, but they may contain leaves and small branches in them.

The amount of wood chips that you would be receiving would be approximately

8 to 9 yards in our dump trucks and 4 to 5 yards in our Lo-Pro. A small load may be requested. Please feel free to call for more if needed.

Once the wood chips have been dropped at the location that you have specified (has to be somewhere on your driveway), you assume all responsibility for the wood chips.

The Township does not come back and pick up the wood chips once they have left the truck.

By signing this document, you fully understand all the specifications that the Frankfort Township Road District has established for the wood chip delivery and are still interested in receiving the wood chips.
